ABOUT ME

Product-focused Computer Science graduate with experience leading 0→1 product initiatives in startup-style environments. Skilled in writing detailed PRDs, defining API and system workflows, prioritizing backlogs, and executing through Agile sprints. Adept at cross-functional collaboration, data analysis, and driving metrics-focused product outcomes.

EXPERIENCE

ETHICS GROUP OF COMPANIES

Sep 25 – March 26

Product Management Trainee (Truthful Treats)

Gurugram, Haryana

- Contributed to 7+ product launches from ideation to GTM execution.
- Conducted competitive research across 15+ SKUs, identifying whitespace opportunities.
- Built pricing and COGS models in Excel, improving cost efficiency by 5–10%.
- Led vendor sourcing and evaluation for 10+ suppliers using structured comparison metrics.
- Wrote PRDs outlining requirements, constraints, edge cases, and success metrics.

PROJECTS

EduStream – Pay-Per-Minute Learning Platform

Product Lead | Django, React

- Led development of a usage-based edtech platform.
- Conducted 100+ user surveys to validate product-market fit.
- Defined system architecture including authentication, minute tracking, and payment logic.
- Wrote user stories and managed backlog using Agile sprint planning.
- Coordinated a 5-member team to deliver MVP.

CU Alumni Connect – Networking Platform

Next.js, Prisma, MongoDB

- Built a platform connecting 500+ students with alumni.
- Designed secure messaging and role-based access features.
- Prioritized features to improve user engagement.

EDUCATION

Chandigarh University

2021 – 2025

Bachelor of Engineering (Computer Science)

Akshat International School, Ujjain - Senior Secondary

2020-2021

Central Board of Secondary Education (CBSE)

TECHNICAL SKILLS

Languages: Python, C++, SQL, HTML, CSS

Frameworks: Django, DRF, React, Next.js
